

HOW WE GET TO YOUR SOUGHT-AFTER SMILE

FREE CONSULTATION

The Free Consultation is the first appointment and also where we figure out your needs to mark up a treatment plan. This way we can figure out the best course of action and what type of denture will be needed.

INSURANCE & PRELIM IMPRESSIONS

After the free consultation with our dentist. We check your insurance coverage and you can decide if you want to go ahead with your treatment plan. After your decision is made we take the preliminary impressions

TRY-IN

A wax try-in is where insert a wax version of your denture before it is processed. At this point we are able to change anything with the shade of your teeth or the bite. After you are happy with this we then process the denture to completion.

BITE & SHADE SELECTION

This is the appointment where the selection of your tooth shade and the placement of your teeth is determined. Bring in a picture of yourself with your original teeth for reference, or go for the hollywood look. Whatever the aesthetic you like

DELIVERY & AFTERCARE

Delivery

Your dentures are fitted and you can enjoy your new life with dentures

Aftercare

Aftercare is one of the most integral part of having a succesful life with dentures. Aftercare is so we can rid of any sore spots and adjust to your liking.

Never hesitate to book an appointment for a adjustment we will gladly accommodate your needs.

Keeping Your Dentures Clean

Tooth Paste is not recomended for cleaning your dentures. Instead:

Soak in cold water and use denture cleanser .

Tooth paste is abrasive and can make the acrylic porous

Using Denture Adhesive

Using Denture Adhesive is a great way to keep your dentures snug

BUT

do not use too much, put a little on each corner of your denture
